

## About the Book:

“Here I Am! Alpacas in America,” is a newly published, non-fiction book for children about alpacas. Alpacas are new to America. These tiny cousins of the llama and camel are raised for their soft, warm fleece. They have long eyelashes, soft noses, and they “hum” to say hello! Alpaca farms are found in every state in the nation. “Here I Am!” describes what alpacas are, how they are raised, why people find them so charming. The photographs on each page illustrate shearing day, crias playing and pronking, and the gorgeous colors of alpaca fleece.

“Here I Am! Alpacas in America” is 52 pages, 8.5” x 11” and is illustrated with full-color photographs.
